Technical Dynamics Profile

Jeffrey W. Hunt is being considered for an Electrical Engineer position with [REDACTED]. In this capacity, he would be expected to design and build cleaning machines. A review of his Profile suggests that he is matched to this opportunity.

Problem Solving/Decision Making

He is apt to recognize the intricacies of multidimensional issues, isolate the various aspects, and identify the cause-and-effect relationships. Since Mr. Hunt shows a conceptual orientation, he is likely to enjoy designing customized solutions that account for the nuances and for the related information. In addition, he is inclined to weigh the possible downsides and implications of his ideas as well as calculate the degree of risk entailed. Thus, Mr. Hunt might not go with his first instinct, yet he should be willing to take action as necessary to address work issues in a timely way.

Personal Organization/Time Management

Mr. Hunt seems to be a disciplined, self-directed person who may prefer to operate in a well-defined, predictable work environment rather than in a freeform setting. He is likely to plan, prioritize, and schedule his activities without ongoing guidance. He is also apt to display a strong work ethic, pressuring himself to move through various projects and administrative activities and following up in a timely fashion. Mr. Hunt appears to have an appreciation for details and would probably pay attention to the fine points, handling routine matters with appropriate care. Yet, he is not likely to become bogged down in the particulars or to get lost in the intricacies of a project at the expense of meeting deadlines.

Interpersonal

On the whole, he would probably display the level of empathy needed to read others' needs and reactions as well as the potential to accept a different perspective from his own. In general, his responses are apt to reflect an adequate capacity to interpret situational cues. As Mr. Hunt also seems rather buoyant, he is likely to engage people in order to build an initial rapport. Moreover, he appears to be accommodating enough to help those who request his services and might appreciate, but not focus on, being recognized for his contributions to team activities. Mr. Hunt is inclined to project a sufficient service orientation to represent the organization in a positive light.

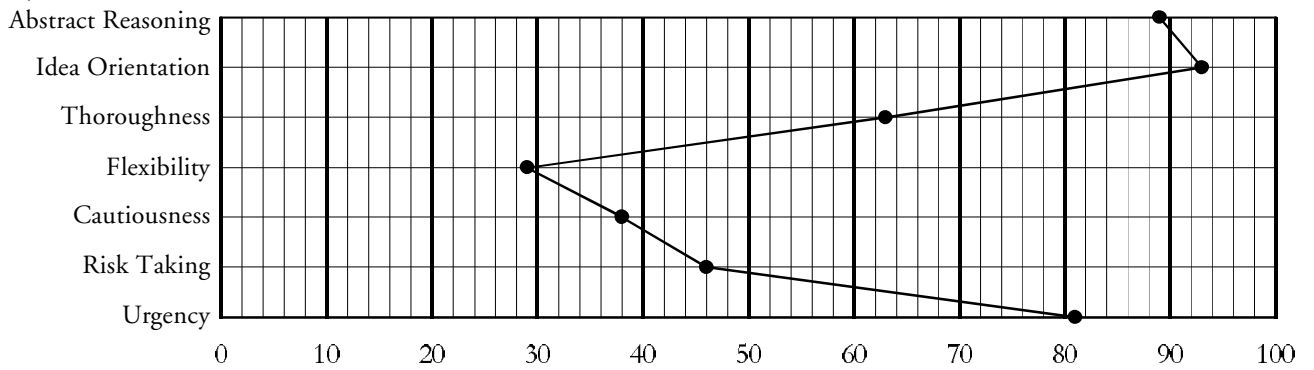

Summary

Jeffrey W. Hunt correctly answered 22 out of 25 questions on the abstract reasoning portion of the Profile, placing him in the 89th percentile. In addition to being bright, he also appears to be creative and able to develop innovative methods to resolve issues. He seems to be a balanced decision maker who is apt to calculate risks, and his specification documents and other reports would probably be completed in detail and on time. Also, he is likely to communicate in a direct manner, take the time to listen to the

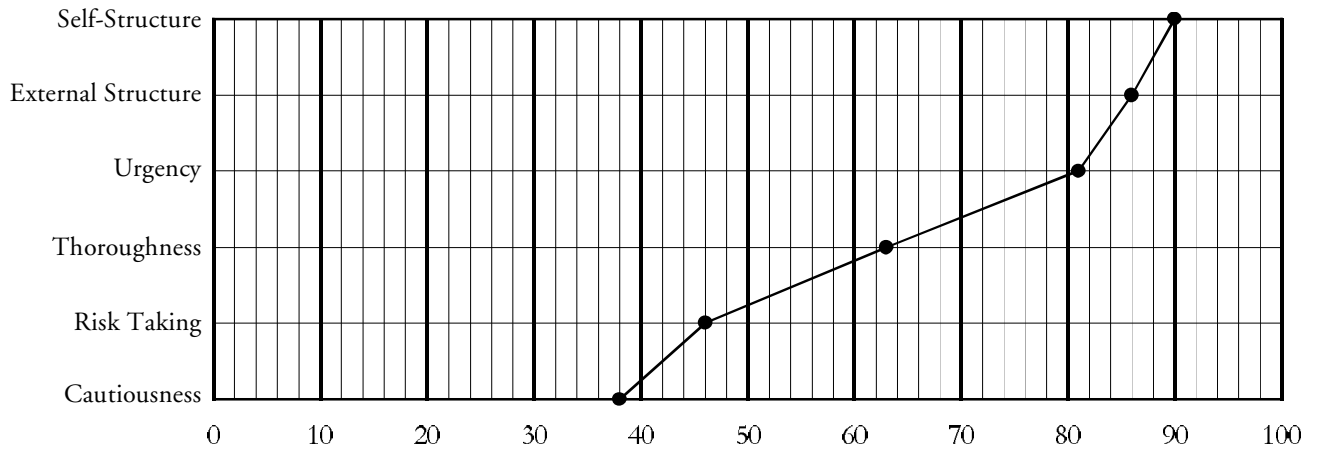

concerns of his audience, and enjoy being on the team. Overall, a review of Mr. Hunt's Profile suggests that he is matched to an Electrical Engineer position with
